

# Timbrian Europe NV: Constant Strive to Build and Maintain Long Term Relationship

Timbrian is an Old English verb, which means “to build”, demonstrating how fundamental timber was in the early era as the main material for all forms of construction.

This is at the essence of what Timbrian Europe NV stands for, and the constant strive to build and maintain long term relationships with both its shippers & suppliers as well as its customers, for the sourcing and supply of high grade timber and timber products.

Timbrian Europe NV is a dynamic company specialising in sale and international purchase of both Hardwood profiles and basic mouldings. Timbrian Europe NV sources from and represent manufacturers across the globe, primarily in Asia (Indonesia and Malaysia) and South America (Brazil and Chile) as well North America (USA and Canada).

The company is able to effectively

support both ends of the supply chain through their partner offices in Singapore and Brazil. These offices are in day-to-day contact with the supplying manufacturers and together with their own graders and inspectors, they have created a network to monitor and support the production and final end chain delivery.

Their clients for these profiled and moulded products are throughout the European continental markets and include Belgium, The Netherlands, France and Germany.

Timbrian's products include exterior profiles decking and garden timber, interior and exterior profiles/moulding and engineered and solid interior doors. The exterior profiles decking and garden timber are made from Bangkirai, Keruing, Massaranduba, Garapa, Ipe and Cumaru from Indonesia and Brazil. Its interior and exterior profiles/moulding is made from Indonesian and Malaysian Meranti, Bintangor and Palapi. Meanwhile, Indonesian Meranti is used to make its engineered and solid interior doors. Timbrian also supplies rough sawn timber made from the various Brazilian wood species as well as Douglas Fir, Hemlock & W.R. Cedar sourced from the USA West Coast and Canada.

Timbrian Europe NV is very committed to promoting sustainable forest management and sources its timber products from certified well-managed forests. It is a member of FSC Nederland foundation and is FSC (Forest Steward Council) Chain of Custody certified.

Together with their shippers they are fully prepared for the EUTR and have implemented a full Due Diligence as per the European

Timber Trade Federation (ETTF) system. Timbrian invite potential suppliers as well as interested buyers of hardwood mouldings and profiles to please contact them at [www.timbrian.com](http://www.timbrian.com).
